

Did you know the ELQI library has book study sets that are available to be borrowed? They can be borrowed individually or any number of copies as needed for your group.

To borrow any of these books (or any resources), please send me an email to sign them out or request them through Librarika. If you are interested in having ELQI facilitate your book study discussion, you can reach out to see if/when that can occur. I am in the process of setting up a Google site with more resources for books studies, so stay tuned for more details on how to access that!

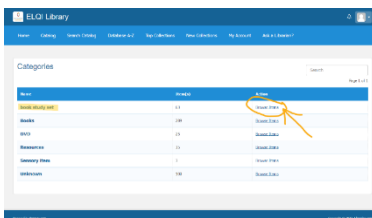

Follow these steps to see the full list of book study sets:

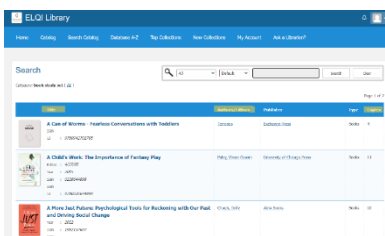

1. Go to the ELQI Librarika catalogue: <https://elqi.librarika.com>

2. Click on 'catalogue'.

3. Click on 'browse items' on the 'book study set line'.

This will show you the book study set titles we have in the library. You can see the title, author and even how many copies of each title we have.

To find more resources to support some of the book study sets, be sure to check out the Book Study Resources Google Site. The site will be updated as we complete more book studies and create or find resources.
